Our Battle with the Jews is Purely Islamic!

The Iranian sponsored Palestinian groups could not find a way to deny the affiliation of the Islamic State with the attack in northern Palestine, other than saying that "the enemy is trying to affiliate the operation with illegitimate goals and purposes refused by the masses, which means removing the national legitimacy of the martyrs, whereas the truth is that the martyrs did the operation with purely national motives!" ... so they claim.

Allah made them speak what is really inside their hearts, as the truth which is revealed for anyone who reads their heresies is that these groups seek to remove the Islamic fingerprint from the fighting in Palestine! and to delete the doctrine of al-Wala' wal-Bara' from the hearts of the young Muslims, and to produce a purely national generation! fighting for nationalism and patriotism, a generation fighting for "illegitimate goals in Islam", mentioned in the Hadith narrated by Abu Musa ash-'Ash'ari - may Allah be pleased with him- when he said: "The Prophet ﷺ was asked about a man who fights out of bravery, and a man who fights out of loyalty, and a man who fights out of wanting to be seen, and which of those is fighting for the sake of Allah". The Messenger of Allah ﷺ said: "He who fights for the word of Allah to be the highest is fighting for the sake of Allah." [Agreed upon], Ibn Hajar - may Allah have mercy on him - said, commenting on the Hadith: "What the Prophet ﷺ mentioned is of the utmost eloquence and brevity, because if he said that everything mentioned is not for the sake of Allah, that holds the possibility that everything not mentioned could be for the sake of Allah, and it is not. So he chose words that combined the meaning, not addressing the nature of the fighting, but the state of the fighter, so it included the answer and more." [Fath al-Bari]

The Prophet ﷺ settled the matter with his response, which is fixed until the Day of Judgment, saying: "He who fights for the word of Allah to be the highest is fighting for the sake of Allah," It is a condition that pushed away all the illegitimate goals and motives for fighting. The only valid goal for which to fight is the sake of Allah to support His religion, make His word the highest, and establish His Shari'ah, whether the masses accepted or refused it! We do not make a presentation that meets the viewers' demands! and we are not required to please the masses, as Allah did not command us to do so. We are only required to please Allah alone, and if He is pleased, then we do not care what else happens. What classifies which goals are valid and which are not is the law of Allah, not the deficient minds of humans and their moody behavior and deluded interests.

It is known that fighting out of "purely patriotic motives" is in line with his saying: "fights out of loyalty," meaning, loyalty for his nation or people or party, as he is fighting for loyalty, not for the sake of Allah! It also contradicts the meaning of the Hadith narrated by Abu Hurayra about the Prophet ﷺ when he showed the essence of the battle against Jews. A quote from this Hadith: "...until the rock where a Jew is hiding behind speaks, saying: O Muslim, here is a Jew behind me, come and kill him." [Agreed upon]. There is no consideration for nationalism and patriotism in this battle and all battles of Islam. Had the battle been patriotic, the armies of the conquering Sahabah in the age of Khalifah Umar bin Khattab - may Allah be pleased with him - would not depart from the Arabian Peninsula towards al-Quds! And had the battle been patriotic, Salahuddin al-Ayyubi would not have come to it from the farthest of lands to conquer while praising his Lord.

They are putting their efforts to further Islam from the battle with Jews and put it in a stinky nationalistic context! evading the tax of faith, while the Islamic State is trying to correct this major sin handed down by generations due to decades of deception.

Our battle with the Jews is purely Islamic! And the legitimacy on which the soldiers of Khilafah base everything on in all their battles is the legitimacy of the Holy Book and Sunnah. How deluded are some people who shy away from Islam and its image, then expect victory to be theirs.

We have many images from this blessed operation. The Muslims waited for a bay'ah from Palestine pledged to the Shaykh Abul-Hasan al-Hashimi - may Allah protect him - but it came, and it did so in a special manner! It came signed with the blood of two lions among the children of Islam who refused but to join the trail of light, and they were effective, left no excuses, and brought joy to the hearts of Muslims everywhere, all while enraging the Jews and munafiqin and others resembling them.

The murtaddin tried to convince the people that the Islamic State does not fight the Jews because they do not want to! They kept spreading this lie to everyone who wants to join the Islamic State, forgetting that the governments, alliances, groups, and militias from everywhere came together in the last decade to prevent the Khilafah soldiers from reaching Palestine or even points of contact with the Jews, and their interests crossed with the Jews' in preventing that. However, Allah surprised them from where they did not expect it and what they were cautious about happened! They became like the one who is driven mad by Satan every time they heard about any operation inside of Palestine, fearing it was the Khilafah soldiers! and they stopped congratulating or blessing any operation until they made sure it was motivated by nationalism, away from the motives they despise! If the mujahidin made a move their operation becomes "suspicious"! and if hours later someone else made a move it became "heroic" .. so leave them to their fraud.

The Islamic State had previously made its stance clear from the conflict in Palestine, be it in the speeches of its leaders or the official published articles. Among those are "Bayt al-Maqdis... Its Supporters are Only the Pious", and "Bayt al-Maqdis ... A Case of Shari'ah Firstly", and "The Way to al-Quds," where it explained the correct, legitimate description of the conflict in Palestine without exaggeration or negligence. The Islamic State spared no effort in delivering death to the Jews or enlisting squads to achieve that, and the Jews know and are hiding more than what they are saying, and it is enough for us that Allah knows, and tomorrow you will know.

What we would like to point out also is what happens in the entire region should not push us to argue and discuss illusions and heresies, for example, setting dates and a time for victory! This has spread recently on the tongues of the "illusionists" and "astrologers" which smote the people in their religion and opened a door for the atheists to stab at and spread doubt in Islam. If setting a date for victory is correct, then the Prophet ﷺ would have been the best to do so, but the tradition went on the Prophet himself in preparing and taking precautions. He lived Badr, Uhud, and al-Ahzab, and he died ﷺ and no one mentioned of him that he ever set a date or a time for victory.

Finally, we address the youth in Palestine and its surroundings to shake off the dust of settlement and leave the circle of delusions and futility, and to correct their doctrine and follow the right path, and to free themselves from the slavery of nationalism to the vastness of Islam. They must realize that the solution is not just in fighting alone, but is in fighting purely for the sake of Allah, who does not accept a ruling other than Shari'ah, and a goal other than to please him. And among the qualities of this solution: supporting Muslims and declaring innocence from mushrikin - that is the straight religion. Allah said: "So devote yourself to the religion of monotheism—the natural instinct God has instilled in mankind. There is no altering Allah's creation. This is the true religion, but most people do not know" (Ar-Rum: 30). All praise is due to Allah, the Lord of all creation.
